
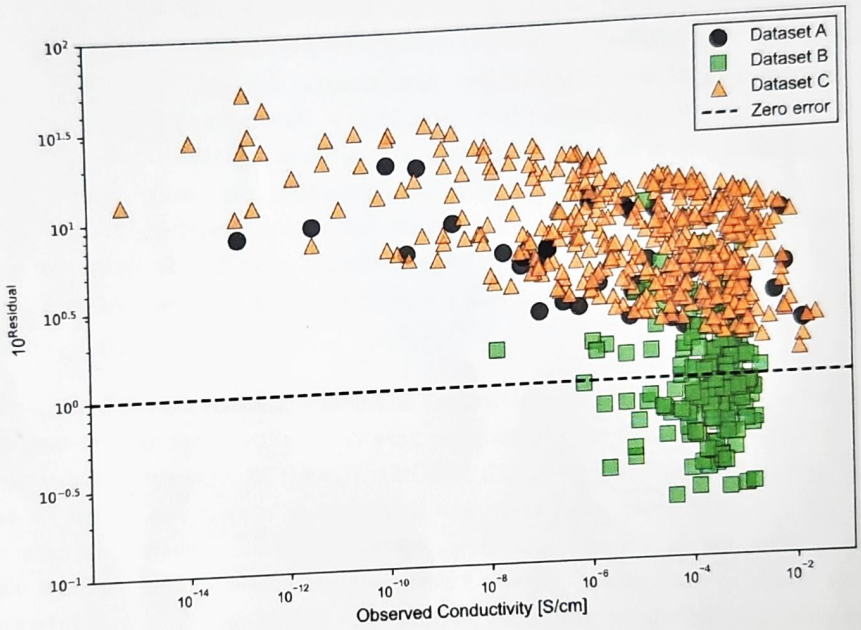
(e)



(f)

Figure 4: Error Diagnostics and Residual analysis: **(a)** Parity plot with regression fit line **(b)** Residual analysis **(c)** Heat map of region-wise error analysis **(d)** Quantile (q) – Quantile (q) analysis **(e)** Absolute percentage Error in various data **(f)** Residual vs. observed ionic-conductivity

Figure 4 Parity plot : predicted vs. observed conductivity.
Figure 5 (a) Residual analysis, and (b) heat map of region-wise error
Figure 6 Remaining plots .....
Bring Figure S1 as the last figure.

Abbreviate ionic conductivity as IC in its first occurrence in the text

what is this?

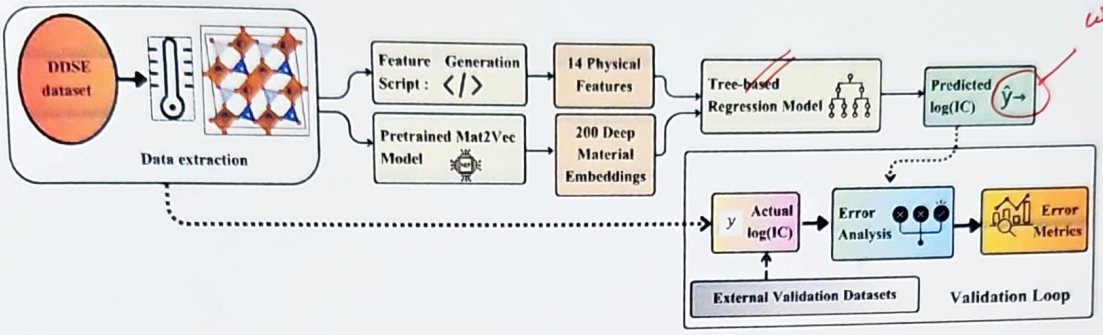


Figure 1: Process flow diagram

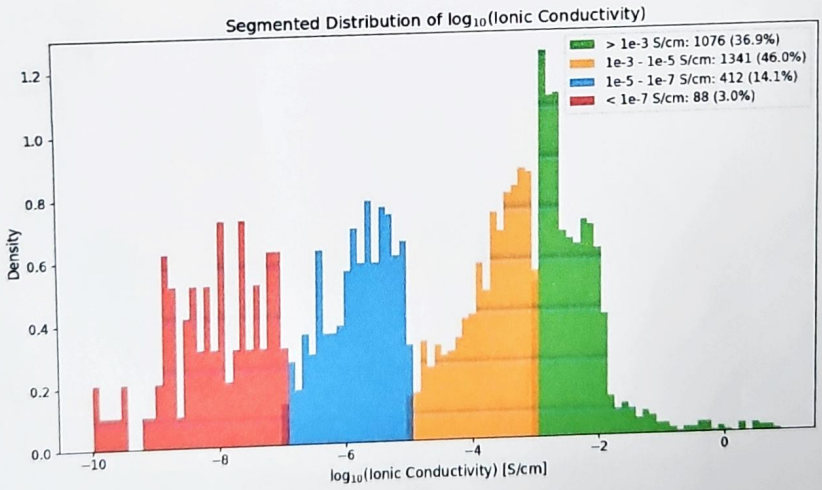

Figure 2 : Distribution of extracted DDSE data
